To Whom It May Concern,

I am pleased to write this letter of recommendation for Mr. Kadir Menzilcioğlu, who was employed by our company. Throughout the period we worked together, I had the opportunity to closely observe his professional capabilities, work ethic, and personal qualities.

Kadir served as a Software Developer and made valuable contributions to a diverse range of software projects spanning web, mobile, and game development. His responsibilities included designing, developing, and maintaining software solutions, implementing new features, resolving technical challenges, and contributing to both frontend and backend development. In addition to his software engineering responsibilities, he was actively involved in game design and development, UI/UX design, and software quality assurance processes. He also utilized automated testing frameworks, including Selenium, to enhance software reliability and maintain high quality standards. Throughout his tenure, Kadir consistently demonstrated strong technical proficiency, exceptional adaptability, and the ability to work effectively across multiple disciplines while quickly mastering new technologies, frameworks, and project requirements.

Kadir possesses excellent analytical and problem-solving abilities, approaching technical challenges with a structured, logical, and solution-oriented mindset. He performs equally well when working independently or as part of a multidisciplinary team, consistently maintaining a collaborative and professional approach. His communication skills, technical judgment, and willingness to contribute meaningful ideas have made him a valuable participant in project planning, technical discussions, and product development.

Kadir has professional-level English communication skills, enabling him to collaborate effectively in international environments and communicate confidently on both technical and business-related matters.

Throughout his employment, Kadir consistently demonstrated reliability, integrity, professionalism, and a strong commitment to delivering high-quality results. His positive attitude, adaptability, and continuous pursuit of professional growth make him a valuable asset to any organization or project.

I have no hesitation in recommending Kadir Menzilcioğlu. I am confident that he will make a meaningful contribution to any organization/project and wish him every success in his future professional endeavors.

Sincerely,

CTO Celadonsoft

Denis Kazak
